November Calendar Workshop Descriptions

www.eocinc.org

Be FAFSA Ready! How to Create FSA ID, Understand contributor and dependency, as well as a Financial Aid Overview.

Choosing the Right Pennsylvania College
This workshop helps students understand how to choose the right college based on their interests, goals, and budget. Students learn about different types of schools, how to compare costs, and how financial aid like FAFSA, grants, and scholarships works. The session also covers how to research colleges, build a list of schools, and complete the application process. The workshop ends with a short interactive game to review key information.

Common Application Workshop: geared for High School Students who want to use the Common Application apply to over 400 colleges and universities.

Covering the Gap: This workshop helps students to understand their options when their semester bill has arrived, and they still have a balance remaining after grants and scholarships are applied and the payment deadline is approaching. The session helps to understand remaining costs, explore available loan options, appealing financial aid awards, and make informed decisions about financing your semester.

Employment in the Age of Ai: Everything that you want to know about Ai and how it is impacting upon careers; also included training to improve your knowledge for your current career and future careers.
